Team Meeting 7

6 OCTOBER 2022/ 11 AM / WORKSHOP

Attendees

Glendon, Ke, Oliver, Tommy, Xavier

Agenda

- ☑ ~~Present to manager~~
- ☑ ~~Discuss presentation slides~~
- ☑ ~~Share current top 100 and top 10 rankings.~~
- ☑ ~~Fraud probability regression and discounted cash flow~~
- ☑ ~~Assign tasks to complete (Day-by-day before Monday slide due date)~~

Notes

- Reminder to everyone that the slides are due on Monday.

- Find correlation between metrics to show how certain metrics are more important than others and why we should prioritize certain metrics more than other.

- Add how we communicated and what software we used in our projects.

- Weightings discussed for the final ranking model. We need qualitative and quantitative reasoning for our selected ranking fields.

  - Weightings are chosen based on quality maximization (we want metrics that maximize a certain quality the best).

  - Weightings are chosen based on **segments analysis**.

Action Items

- By Thursday night:
    - ☐ Add unique customer count per merchant (Glendon has this in a branch somewhere).
    - ☐ Add fraud regression model to ETL script.
    - ☐ Finalize segments and their preferred features.
- By Friday night:
    - ☐ Final feature selection (incl. Per-segment field subsets)
    - ☐ Generate the final top 100 and top 10 per segment.
- By Saturday night:
    - ☐ Full slides draft.
- By Sunday night:
    - ☐ Final output for code (should not change from this point on).
    - ☐ Finalized presentation.
        - Spellcheck
        - Hopefully a practice run.

Next Meeting

Planned for next Monday @ 7:30PM.
